

GET EVEN WITH YOUR OVEN

The brand-new Enjo oven glove is a speedy, easy and chemical-free product for cleaning the dreaded oven.

The unique cleaning mitt boasts the perfect fibre combo to wipe the dirty oven clean with just a few strokes. The fibres, which are 100 times finer than a human hair, are designed to make cleaning easier.

In fact, pressing hard and scrubbing too much won't allow the fibre to work properly, so let the gloves do the hard work instead.

The mitt is also machine-washable and reusable for two to three years.
