## The ideal gift for Father's Day

A new television is the overwhelming Father's Day gift of choice, with 77 per cent of respondents voting the box as their top choice in a recent Good Guys' Facebook community survey, made available to more than 225,000 users.

Home theatres came a close second, with the ultimate viewing experience being a top priority. Coming in for bronze was the ever-convenient GPS; in fourth place iPad tablets, and in fifth place a quality shaver.

Other favourites making the list include bar fridges, smart phones, car vacuums, digital cameras and coffee machines. For product information, visit your local Good Guys store or go to [thegoodguys.com.au](http://thegoodguys.com.au).
